

How to Use Lockbox with Phone

- 1) Open the phone application
- 2) Hit "ENT" on the lockbox, then find the Bluetooth symbol on your phone
- 3) Use your finger to tap the box on your phone
- 4) Enter your pin#, then hit "Done"(Android) or "Open" (Apple)
- 5) If the box is not opening make sure to hit "ENT" because the box will fall asleep after 30 seconds (A usual sign that box is sleeping is that the Bluetooth light is not blinking)
